- Backend with Node.js and express

PROJECTS

Netflix Clone

https://github.com/noiceee/netflix-clone

A full-stack Netflix Clone, with an admin dashboard, JWT based user authorisation, admin and user accounts. Used React.js, Node.js, Sass, MongoDB and Firestore to build.

Admin Dashboard

https://github.com/noiceee/admin-dashboard

Built with React, the Admin Dashboard provides admins the functionality to manage users, visualize statistics, and update database with ease. Used MaterialUI and recharts library for interactive charts.

Clock Extension

https://noiceee.github.com/clock-v2/

A minimalist clock for default tab. Used HTML, CSS and JS to build it, comes in with a lot of customization options and saves the changes in localStorage.

Portfolio Website

https://kartikey.tech

Portfolio website made with React.js, responsive and optimized for performance. hosted on Netlify.

ACHIEVMENTS

CSS Skill Certificate, HackerRank
REST API (Intermediate) Certificate, HackerRank
3 Stars on CodeChef
Gold Badge in C and C++ on HackerRank

CLUB ACTIVITIES
